Please attach an engineering plan that meets the technical standards and specifications of NRCS Practice Code 360 - Waste Facility Closure. The engineering plan shall include the following information at a minimum. The applicant may use this checklist to ensure a complete application.

NARRATIVE

A general description of the history of use of the waste facility including construction or modification date(s), type of livestock, and duration of use, if known.	<input type="checkbox"/>
A description of the method and specifications in transferring manure into and from the existing manure storage facility to ensure proper closure of transfer systems.	<input type="checkbox"/>
<i>USE CONVERSION ONLY:</i> Provide a detailed description of the intended alternative use for the waste facility and/or waste transfer system. Include a clear demonstration that the conversion will not result in a degradation of soil, ground water, or surface water resources; or be a threat to public health, safety or general welfare.	<input type="checkbox"/>

LOCATION MAP

The location of structures in relation to buildings, homes, property lines, roads, wells, karst features, public or private drainage ditches and creeks, flowages, rivers, streams, lakes, or wetlands within one thousand (1000) feet of the proposed facility or system.	<input type="checkbox"/>
The scale of the drawing and the north arrow.	<input type="checkbox"/>
The date the general location map was prepared.	<input type="checkbox"/>

ENGINEERING DESIGNS

For all waste impoundments, plan requirements and provisions shall be in compliance and consistent with applicable Technical Standards and Specifications including NRCS Practice Code 360.	<input type="checkbox"/>
Provisions to remove or permanently plug the manure transfer system serving the manure storage facility.	<input type="checkbox"/>
Provisions to remove and properly dispose of all accumulated manure in the manure storage facility and waste transfer system	<input type="checkbox"/>

ESTIMATED START OF CONSTRUCTION AND SCHEDULE	<input type="checkbox"/>
---	--------------------------

SAFETY PLAN - Manure storage facility closures and conversions shall implement safety measures to ensure the protection of the public from hazardous conditions.	<input type="checkbox"/>
---	--------------------------

OTHER - Any other additional information required by the LWCD to protect water quality and achieve compliance with the requirements of this Ordinance.	<input type="checkbox"/>
